

Clean Safely with

safeblend™

2024 CATALOGUE

safeFlex

NEW Flexible Packaging

Safeblend is proud to introduce **SafeFlex**, flexible packaging as a patented environmentally preferable alternative to conventional packaging!

Innovative

Innovative technology that enables the transition from larger traditional rigid containers to flexible packaging.

Sustainable

Recyclable and contributes to reducing plastic use and resource reduction.

Flexible

Flexible, lightweight packaging design provides environmental advantages as well benefits for an excellent user experience!

Performant

Advanced cleaning solutions for optimal performance.

Features & Benefits

Compact storage

Takes less room in the janitorial cart, closet, warehouse and in transport.

Easy to use

Ergonomic dual handle makes it easy to carry, pour and store – No splashing or glugging while filling buckets.

Reduces waste

Flexible package allows for full evacuation of viscous products

Easy disposal

SafeFlex uses a patent-protected innovative technology, easy to use, durable, light weight and collapsible. Flat when empty – takes up less space in recycling bin

safeFlex Resource Reduction compared to conventional packaging

About Safeblend

At Safeblend, we are committed to the use of new and safer technologies to produce high performance cleaning solutions that address environmental, human health and safety concerns.

Our products are made with the environment and the user in mind. Safeblend products are made of premium, effective environmentally preferable ingredients and packaging which ensure high performance for a clean environment and user safety.

Our team is committed to an exceptional customer experience, quality assurance and giving back to our community.

Clean Safely with Safeblend!

Safeblend Packaging

- ✔ All of our containers are fully recyclable.
- ✔ Our green 4 L and 950 mL bottles are made with at least 25% post consumer waste.
- ✔ Our boxes contain at least 50% recycled fibre.
- ✔ Our labels use FDA approved vegetable based inks.
- ✔ We are constantly working to find innovative packaging solutions, like our SafeMix Dilution Control System and pouches, that are more efficient and better for our environment

Certifications

We are committed to offering the best, most accessible cleaning products on the market. From our liquids and powders all the way to our bottles and packaging, every part of the Chemotec and Safeblend brands is thought out with our customers and the planet in mind.

ULECOLOGO provides third-party verification that a product is healthier and more sustainable

Made in Canada : Proudly manufactured in Canada

Recyclable : All our containers are fully recyclable

25% Recycled : All Safeblend 4L and 950 mL bottles are made of at least 25% recycled materials

Bureau of Chemical Safety : Our products are compliant with the Canadian Bureau of Chemical Safety

DIN : Health Canada Drug Identification Numbers (DIN)

ISSA : Proud member of the International Sanitary Supply Association (ISSA)

MK : All our Safeblend products are certified Kosher

EcoLogo

The most trusted name in safety, UL Environment's certification ECOLOGO, provide differentiation in the marketplace and third-party verification that a product is healthier and more sustainable. Ecologo Certifications are voluntary, multi-attribute, lifecycle based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.

These standards set metrics for a wide variety of criteria in some or all of the following categories: materials; energy; manufacturing and operations; health and environment; product performance and use; and product stewardship and innovation.

Recognized world-wide, Ecologo is North America's largest, most respected environmental standard and certification mark. Ecologo provides customers with assurance that the products and services bearing the logo meet stringent standards of environmental leadership. Ecologo certifies environmental leaders, helping you find and trust the world's most sustainable products.

The Ecologo Program is a Type I eco-label, as defined by the International Organization for Standardization (ISO). This means that the Program compares products/services with others in the same category, develops rigorous and scientifically relevant criteria that reflect the entire lifecycle of the product, and awards the Ecologo to those that are verified by an independent third party as complying with the criteria.

Private Label

Let Our Quality Promote Your Brand!

- ✔ All Safeblend or Chemotec products can be produced via our private label program.
- ✔ Our experts will assist you with product selection, design, labelling, branding, sell sheets, and other sales and marketing tools.
- ✔ We can also certify your products with the Ecologo, Health Canada certification, Bureau of Chemical Safety acceptance and Kosher certification.
- ✔ We can also develop products to your specifications, colours, and fragrances.

Please contact our professionals at service@safblend.com for more information regarding our private label program.

MULTI-PURPOSE CLEANERS AND DEGREASERS
